LEAPS: Options for the Long Term - Etrade

<https://us.etrade.com/knowledge/education/options.../options/leaps-long-term-options> ▼
 ZYX is currently trading at 50½ and a ZYX LEAPS® call option, with a two-year expiration and a strike price of 50, is trading for a premium of 8½ or \$850 per contract. The investor buys five contracts for a total cost of \$4,250, which represents the total risk of the call position. The calls give the investor the right to buy 500 ...

Leap Secured Options Writing - The Ultimate Safe Investment Strategy ...

<https://seekingalpha.com/.../1829522-leap-secured-options-writing-the-ultimate-safe-i...> ▼
 Nov 11, 2013 - In that worst case scenario, with a proper hedge you can limit your downside to a loss in the 5-10% range. The likelihood of that happening? Pretty likely once every hundred years, very unlikely in other years. The Rationale. At the basis of this strategy are two realities about options: The majority of options ...

Buying LEAP Options | Long Term Options - The Options Playbook

<https://www.optionsplaybook.com/rookies-corner/buying-leap-options/>
 Buying LEAP call options is similar to, but less risky than, buying the underlying stock. ... Here's a method of using calls that might work for the beginning option trader: buying long-term calls, or "LEAPS". ... Remember, a delta of .80 means that if the stock rises \$1, then in theory, the price of your option will rise \$0.80. If delta ...
